

INTERNATIONAL STUDENTS WORKSHOP ON ARCHITECTURE  
**SUSTAINABLE CONSERVATION AND DEVELOPMENT**  
**CAMOTES ISLANDS**

**Cebú September 15th-20th**

The objective of the workshop is to design an architectural and urban strategy in order to provide Camotes Island with a sustainable tourism infrastructure, while preserving the cultural, natural, human and architectural heritage. Students will work on the field to collect data in order to implement a sustainable development strategy for this emblematic spot in the Visayas Region.

**SCHEDULE**

September 15th	Arrival to Camotes
September 16th	Fieldwork in Camotes
September 17th	Fieldwork in Camotes
September 18th	Transfer and visit to Cebú
September 19th	Work in San Carlos University
September 20th	Public presentation
